

Pelham Math Vocabulary 6-8

absolute value	coplanar	function table
accuracy	corresponding angles	gram
acute angle	counterclockwise	graph
acute triangle	cross products	greatest common factor (GCF)
Addition Property of Equality	cube (geometric figure)	height of a parallelogram
additive identity	cube of a number	height of a triangle
additive inverse	cubic units	heptagon
adjacent angles	cylinder	hexagon
algebraic expression	data	histogram
Altitude	Decagon	hypotenuse
Angle	degree	Identity Property
area	denominator	image
Associative Property	dependent variable	inconsistent system
average	diameter	independent variable
axes	direct variation	indirect measurement
binomial	discrete	inequality
box-and-whisker plot	Distance Formula	infinity
Cartesian coordinate plane	Distributive Property	integers
centimeter	divisible	interior angle
chord	Division Property for Inequalities	intersecting lines
circle	Division Property of Equality	inverse
circle graph	domain	inverse operations
Circumference	edge	irrational numbers
clockwise	elimination method	isosceles triangle
coefficient	equation	kilogram
collinear points	equilateral triangle	lateral area
common denominator	equivalent equations	lateral face
Commutative Property	equivalent expressions	leading coefficient
complementary angles	equivalent fractions	leaf
complements	equivalent ratios	least common denominator (LCD)
composite number	evaluate	least common multiple (LCM)
congruent	exponent	legs
congruent figures	expression	legs of an isosceles triangle
conjecture	extremes	like fractions
consecutive integers	factor	like terms
consistent system	factor tree	line
constant	factored form	line graph
continuous function	factorial	line of symmetry
coordinate	formula	
coordinate grid	function	
coordinate plane	function notation	

Pelham Math Vocabulary 6-8

line plot	outcome	range
line segment	outlier	rate
linear equation	parallel lines	rate of change
linear function	parallel planes	ratio
liter	parallelogram	rational equation
lower quartile	parent graph	rational expression
mean	pentagon	rational function
measure of central tendency	percent	rational numbers
measure of variation	percent of change	ray
median	perfect square	real numbers
meter	perimeter	reciprocal
metric system	perpendicular lines	rectangle
midpoint	pi	rectangular prism
mode	plane	reflection
monomial	point	regular polygon
multi-step equations	polygon	relation
multiple	positive correlation	repeating decimal
multiplicative identity	positive integer	rhombus
multiplicative inverse	positive number	right angle
Multiplicative Inverse Property	power	right triangle
Multiplicative Property of Equality	power function	rise
Multiplicative Property of Zero	prime factorization	roots
n-gon	prime number	rotation
natural numbers	prism	run
negative integer	probability	Scalar multiplier
net	product	scale
nonagon	proof	scale drawing
noncollinear points	property	scale factor
noncoplanar	proportion	scale model
numerical expression	protractor	scalene triangle
obtuse angle	pyramid	scatter plot
obtuse triangle	Pythagorean Theorem	scientific notation
octagon	Pythagorean triple	segment
open sentence	quadrant	sides of a polygon
opposites	quadratic equation	sides of an angle
order of operations	quadrilateral	similar figures
ordered pair	quartiles	simplify
ordinate	radical equation	slant height
origin	radical expression	slope
	radical inequality	slope formula
	radical sign	slope-intercept form
	radicand	solid
	Radius	solution

Pelham Math Vocabulary 6-8

solution of a system of equations
solution set
space
sphere
square (geometric figure)
square of a number
square root
statistics
straight angle
straightedge
Subtraction Property of Equality
success
supplementary angles
surface area
symmetry
system of equations
term in an expression
terminating decimals
theorem
three-dimensional figure
transformation
translation
trapezoid
triangle
unit rate
unlike fractions
variable
Venn diagram
vertex
vertical angles
volume
whole numbers
x-axis
x-coordinate
x-intercept
y-axis
y-coordinate
y-intercept
zero exponent

Zero Product Property
