

**Pelham School District**  
**Solar Energy Task Force**

July 7, 2021

**Purpose:** To review options and provide a report for the Pelham School Board regarding Solar Energy options as a part of the FY23 budget process.

**Commitment**

- An initial meeting in the week of August 2.
- Meetings will be bi-weekly through August and September of 2021.
- Meetings will be remote to allow greater participation.
- Participants will need to allow for two to three hours of additional time per week
- The report will be presented to the School Board at a September 2021 meeting.

**Membership**

- School Board Member            Selected by the School Board
- Town Official                    Selected by the Board of Selectmen
- Parent -                            Selected by the PES PTSA
- Student-                            Selected by the PHS Principal
- Teacher/Educator                Selected by the PEA
- Superintendent                  ex officio
- Business Administrator        ex officio
- Director of Facilities            ex officio
- Owner's Agent                    ex officio

**Key Considerations**

On-site renewable energy solutions are successful when three important objectives are achieved:

- Economic benefits - The project needs to benefit the district budget and therefore the taxpayers who support our operations.
- Environmental benefits: The project needs to provide a net improvement compared to our current energy usage.
- Educational benefits: The project would be improved if students can learn from it.

**DRAFT Agenda for Meeting during the week of August 2**

1. Introductions
2. Purpose
3. Norms
4. Schedule
5. Key Considerations
6. Next Steps
